GENERAL Grant Guidelines

In the event that the original conditions of the grant are modified through change in grantee (i.e., voluntary or involuntary transfer), school site or student population, all unspent grant monies shall be returned to the Education Foundation.

If the grant is awarded to more than one staff member and one of the recipients is no longer assigned at the original school, all grant materials and resources will remain with the original school, unless the partner teacher no longer wishes to take lead of the grant.

If a grantee transfers within the Bakersfield City School District and believes that similar needs exist and a similar population will be served at the new school, a request may be submitted to the Education Foundation that the grant be transferred with the staff member. If the staff member transfers outside BCSD, grant transfer is not possible.

When a grant transfers with a staff member to a new school, only unspent funds and items not attached to the school facility will transfer with the teacher. Any grant funded items attached to the school or required for the functioning of an attached item will remain at the school site in which it was originally installed.

If a staff member transfers before the grant is fully implemented, all unspent monies will be returned to the Education Foundation unless the principal at the recipient school requests and can assure the Education Foundation that the grant will be fully implemented with a new staff member.

Applicant is defined as any staff member who has daily and direct interactions with students.

Other Items to Note:
